## Colour Consultation

- \$200 for 1-2 hr consultation

Our colour consultation service is to assist our customers in navigating the vast selection of colours and to ensure that the works with rather than against their home.

The consultation consists of a home visit and discussion along with the provision of two to three colour schemes depending on the needs of the customer.

## Verbal Consultation

- \$150 for a 1 bedroom flat
- \$250 for a 2 bedroom property
- \$320 for a 3 bedroom property
- Additional bedrooms \$70 each
- Evaluation of only one room \$100

Our verbal consultation service is for people who would like design advice on how to create a new look in their home without employing an interior designer. We are aware that any design scheme we put forward would need to incorporate existing furniture and there will be a definite budget in mind. Sterling Decorators visit your home to review how you and your family use your living areas, assess the furniture we need to incorporate and discuss the overall look and feel you want to achieve. We know what to look out for, those areas in your home that with minimal changes can easily be refreshed. We will probably suggest some general decluttering, moving pieces of furniture to redefine rooms and recommend new colour schemes and accessories.

## Verbal Consultation with Follow Up Mini Report

- \$340 for a 2 bedroom property
- \$400 for a 3 bedroom property

Following the verbal consultation Sterling Decorators prepare a detailed written and illustrated document that includes photographs and design recommendations. ## One-Day Styling Session

- All initial consultations are free for this service.
- Stirling Decorators offer a range of services to suit all requirements & budgets
- Evening & weekend appointments are available
- \$550 per day

Styling Sessions can be great fun Sterling Decorators make an initial visit to your home to discuss what is achievable in a one-day styling session for up to three key rooms. Throughout this visit we assess your use of the space, positioning of furniture and discuss the overall look and feel you want to create from the one-day styling Session. We may recommend that some general decluttering is required before we start so that the session is as effective as possible. With planning it is sometimes possible to paint one room during the day and a fresh coat of paint and some new accessories are usually all that are needed to quickly refresh and boost a room.

After our initial visit we'll send you a checklist and schedule of work for the day and a list of items (paint, brushes etc) that we'll need for the day.

This session is ideal for Up to 3 key rooms.
